Confident Connected Contributing

One third of Glasgow's people are disabled – that's 200,000 of us

with vital lived experience and expertise about the barriers we all must tackle, to build a fairer, more equal society.

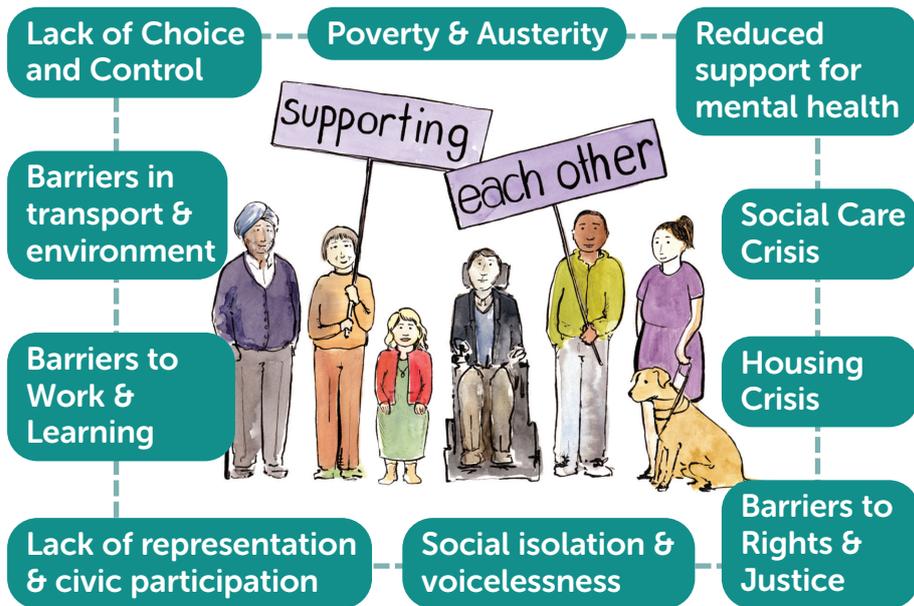

We live with these barriers every day in a world designed without us in mind.

Involve us in designing a better one.

**Work with us.
Involve Us.
Invest in us.**

We are people with mental or physical health conditions, deafness, visual or mobility impairments, autism, learning difficulties, brain injury, and other long term conditions.

Impairment is a normal part of life: inequality is not!
